

ALESSANDRO RONCONE

CURRICULUM VITAE

I AM A ROBOTICS ENGINEER AND A DESIGNER

■ **Personal Website:** (<http://alecive.github.io>)

■ **WHO AM I**

■ **SUMMARY**

Alessandro Roncone was born in Genova (GE), Italy, 1987. He received his *Bachelor's Degree in Biomedical Engineering* with the score of **110/110 with honors** at the University of Genova in February 2008. In July 2011 he completed his *Master Degree in NeuroEngineering* (with the score of **110/110 with honors**) in the same University. He is currently a *Ph.D. fellow at iCub*

Facility, Istituto Italiano di Tecnologia, GENOVA, Italy. The goal of his Ph.D. project is to exploit insights from neuroscience in order to implement a model of *Peripersonal Space (PPS)* on the iCub. The PPS is thought to have a crucial role in humans as well as in animals, acting as an interface between the body and the outside world. It is defined as the space immediately surrounding our bodies, within which objects can be reached and manipulated. It is intimately multisensory, and shows high plasticity: it can be dynamically modulated by incoming information, short term or long term experience, and contextual demands.
